

A diagram on a grid. A parallelogram is drawn in the upper right quadrant, with its bottom-left vertex at (4, 4) and its top-right vertex at (6, 6). Below the parallelogram, two points are marked with black dots. The point on the left is labeled O and is located at (3, 3). The point on the right is labeled O' and is located at (5, 3). The grid consists of dotted lines forming a square pattern.
